WESTERN

LARIAT

TRADITIONAL LARIAT

Designed with traditional working cowboys in mind. Unlike tournament ropes, the fiber in our traditional lariat is waxed prior to making the rope. This produces a rope that has superior abrasion resistance for long lasting, consistent performance. Product is available in both factory-aged and unaged (for field aging), in sizes from 5/16" through 7/16", and lays for header and heeler.

TOURNAMENT ROPE (TR-II)

Designed for team ropers with an emphasis on speed. Our TR-II rope is a 100% nylon 3 strand rope utilizing proprietary manufacturing techniques to provide a smoother more balanced rope with consistent body. This proprietary technique produces a rope that is faster and more accurate out of your hand when it counts. TR-II is factory-aged, and is available in 3/8" from extra soft to medium hard.

CALF ROPE

Designed to meet the unique requirements of tournament calf ropers. Using our proprietary manufacturing technique, this rope has more body and weight than a polyester rope. This unique design produces a rope that has less stretch than other calf ropes and will remain consistent from round to round. Available 7/16"SC, 3/8" Plus, and 3/8".

BRAIDED LARIAT

Designed to be the fastest rope in the arena. The sixteen strand braided design produces a fast, ultra-smooth, totally balanced rope. This specialized design creates a rope that is faster and more accurate than any tournament rope you will find. Available factory-aged in 5/16" through 7/16" medium lay.

POLYESTER/NYLON

Designed for traditional cowboys looking for a little added weight in their lariat. Manufactured using the same time-tested techniques as our traditional lariat with a blended polyester for additional weight. Available factory-aged in 5/16" and 3/8"SC in extra soft and soft.

KID ROPE

Designed for the smaller hands of kid ropers/buckaroos. Manufactured to the same high standards of our traditional lariat, however in a smaller diameter and lighter weight. Available in 9/32" soft.

UNWEIGHTED LARIAT

Designed for the traditional cowboy who is looking for a lighter weight lariat. Manufactured using the same high-strength nylon found in our other lariats, however without the weight of internal wax. Available in 3/8" and 7/16" soft/medium

HALTER / LEAD

3-STRAND SPUN NYLON

Designed for use as a traditional lead rope. This product uses spun nylon to have the soft feel of cotton coupled with the stretch of a nylon rope. The rope is manufactured with a firm lay to provide the control that can only be found in this traditional-style lead. Available in white, 3/8", 9/16", 5/8"

12-STRAND SPUN NYLON

Designed for clinicians using the latest horse training techniques. This product uses the same spun nylon found in our 3-strand, however in a non-hocking 12-strand construction. This rope is extremely soft to the hand and easily spliced. Available in white 5/8" only.

WAXED REIN ROPE

Designed to be the finest firm rope reins available anywhere. Utilizing our 35 years of experience in tree ropes and lariat, this product uses a waxed, 16-strand kernmantle construction to produce a firm abrasion resistant rope that has great hand. Available in black 1/2".

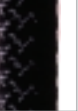

MEGABRAID II

Ideal rope for use as a Mecata. This product is a 16-strand rope with each strand made from 100% braided nylon cord. This unique design produces a rope that is both pliable and snag-resistant. Available in black and white 1/2", 9/16", 5/8"

KM III

The original mountain climbing / rescue rope used as firm rope reins. Designed for police SWAT teams, KM III uses a blend of polyester and nylon in a firm kernmantle construction to produce a premium-quality rope that has great hand and is never too soft or bouncy. Available in black 1/2", 5/8"

STA-SET

The finest quality polyester yacht braid available; ideally suited for premium halters and/or matching leads. used by clinicians the world over to provide a soft, secure halter that will not slip or stretch. Available in black, red, green, or blue 3/16" through 3/4"

MULTILINE II

Our most popular 3-strand rope, MultiLine II is ideally suited as a pack rope or for making hobbles. A composite rope made of polyester yarns wrapped around a core of polyolefin in each strand, this rope will have very little water absorption and will not break down from UV exposure. Spun polyester is added to the surface for better grip and chafe protection. Available in white with orange tracers 3/8" through 1"
